

28 years old media enthusiast with a long experience in different media and arts through hobbies and education. I have a cheerful personality and I am always eager to learn new skills.

I made my first web sites at the age of 12 with legendary Expage. I knew then what I want to be when I grow up. I have always been an artistic person and drawing/painting have been dear hobbies for me. I speak Finnish as

my mother language, but also communicate well in English and have the very basics of Swedish.

#### **TECHNICAL SKILLS**
